Application Submission

Log into the system and fill out personal data

1. Undergraduate students

In order to be able to submit an online application for an academic identity card, an undergraduate student is required to have academic credentials (username - password) given to students by the relevant Department upon their registration to be used for all online services of the Institution.

In case a student has not received pertinent credentials as well as in the event of any eventual access issues, he/she may contact the Department's Secretariat or the Institution's Network Center.

Following successfully logging into the system, the student shall have to confirm the accuracy of his/her personal data. In case of any errors, the student should contact the Department's Secretariat or the Institution's Network Center in order to make pertinent rectification. Thereafter, the student shall have to fill out any other personal details as they may be required.

2. Postgraduate and doctoral students

Postgraduate and doctoral students shall not log into the system by using their academic credentials. Instead they shall have to fill out themselves the personal data they shall be requested to. Each student's statement shall be considered as a Responsible Declaration in the sense and to the effects of Law 1599/1986, so therefore students should be very careful when entering information which must be true and up to date.

Submission of application and pick up of the Academic Identity Card

1 Make sure that the following rules are met, so you do not waste time uploading a photo which will not be accepted.
If you are having trouble uploading the photo, please download [Google Chrome](#) or [Mozilla Firefox](#).

1 The photo must be recent, in color, on a neutral background and clearly depicting the face of the beneficiary student only.

1 Photos in which the depicted person, wears sunglasses will not be accepted. If there are veils, scarves or hats, these should be removed. In case these cannot be removed for religious reasons, make sure that any features of the person's face are not hidden.
